(54) **Simethicone containing laxative composition**

(57) The present invention provides a method for enhancing the transit of stimulant laxatives through the small bowel through the use of an effective amount of simethicone or dimethicone. Compositions useful in the method of the present invention are also claimed.

UNVOLLSTÄNDIGE RECHERCHE
ERGÄNZUNGSBLATT C

Nummer der Anmeldung
EP 00 30 7689

Claim(s) searched completely:

4, 5

Claim(s) searched incompletely:

1-3, 6, 7

Reason for the limitation of the search:

Present claims 1-3 and 6-7 relate to compounds defined (inter alia) by reference to the following parameter: "laxative or stimulant laxative". The use of this parameter in the present context is considered to lead to a lack of clarity within the meaning of Article 84 EPC. It is impossible to compare the parameter the applicant has chosen to employ with what is set out in the prior art. The lack of clarity is such as to render a meaningful complete search impossible. Consequently, the search has been restricted to those parts relating to the compounds individually structurally identified by name in the claims, with due regard to the therapeutic application mentioned in the claims

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 00 30 7689

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
